

## BENEFITS:

**BALANCES GROWTH & COLOR**

**TURF HARDINESS**

**IMPROVES NUTRIENT TRANSLOCATION**

**Power 4-4-16** is a very high potassium-to-phosphate and nitrogen ratio auxiliary nutrient compound. It contains major nutrients that are designated for use on intensively managed turfgrasses such as golf courses, athletic playing fields, etc. The high potassium in **Power 4-4-16** allows the turf manager to maintain adequate levels of potassium while supplying necessary nitrogen and phosphorous for critical growth and energy during stress periods. **Power 4-4-16** also contains non-nutritional organic acids for complexed nutrient availability and uptake.
